How to turn in Assignments

author: Julin Maloof date: April 07, 2015

I am missing usernames for:

I need your GitHub Username

Daniel Aherns

Samuel Deck Anjali Kadakia Khoa Nguyen * Scot Nicol Nabeel Sami Pallavi Setty

Modify the gh-usernames.md file Add your changes Commit your changes

To give me your GitHub Username:

Send me a pull request (from the web browser)

Fork the gh-usernames repository

Clone it to your computer

Push back up to GitHub

- See GitHub assignment from last Thursday. If you need help please ask.

Gurkern Sufi

Igor Hiroshi Terayama de Oliveira

- Assignment turn-in
- I have created a private GitHub repository for each of you

Short version: * Clone the repository * Create a directory in the repository "Assignment 1" * Copy your

the webpage for your repository create an issue "Please Grade Assignment 1"

Create an issue, 2

=

emerald:git.test jmaloof\$ Create a directory and move files cd into the repository (Change Stacey. Harmer to whatever is correct for your repo) make a directory for the assignment and change to it • move the relevant file(s) to the directory. (This will vary depending on where your files are) cd BIS180L Assignments Stacey. Harmer mkdir Assignment 1 cd Assignment 1 mv ~/Documents/BIS180L Lab1/* ./

emerald:git.test jmaloof\$ git clone https://github.com/UCDBIS180L/BIS180L_Assignments_Stacey.Harmer.git

Continue to work on the assignment And and then commit new changes whenever you change something significant

Check status; Git to track the files

Continue working and committing

When you are ready to submit push your changes to GitHub First set your git configuration options (only needs to be done once per machine)

To tell us that you are ready for us to grade your assignment * go to the github webpage for this
